

Basically we are continuing our enforcement actions of monitoring irrigation water and turning it off when it reaches 50% of historical use. We also monitor domestic use and send out surcharges for any usage over 50% of historical. After a couple of months of that we only have a few holdouts who can't bear to part with their landscaping. Our first price winner is the 33 house Redwood Valley Rancheria that has reduced usage based on a five year average for April/September by 70%. The Redwood Valley County Water District Board of Directors will consider modification of its 50% mandatory conservation Ordinance 10/7. Bill

REDWOOD VALLEY COUNTY WATER DISTRICT WATER DIVERSION REDUCTIONS

	2004 AF	2009 AF	% Savings	% Cumulative Reduction
April	162.89	161.00	1%	1%
May	173.11	74.58	57%	30%
June	325.64	82.48	75%	52%
July	430.78	157.54	63%	56%
August	361.24	190.04	47%	54%
September	287.21	143.88	50%	53%
